RAHNS Construction Material Co. Corporate Office

## **RAHNS CONCRETE AND H&K GROUP INC., JOIN FORCES TO DONATE ENGINE AND TRANSMISSION TO LOCAL TECH SCHOOL**

Skippack, PA – Rahns Construction Material Co. (Rahns Concrete) partnered with [H&K Group, Inc., \(H&K\)](#) to supply an operating diesel engine and transmission to Western Montgomery Career and Technology Center in Royersford, PA.

The engine, a Caterpillar C10, and the transmission, an Allison automatic, were gone over, painted and “put together” on a frame with a fuel tank, battery box and all other essentials to make the engine function as it normally would. The setup will be used to test students on diagnostics in the diesel technology program.

Rahns Concrete’s lead mechanic assembled the engine and transmission setup, H&K’s in-house weld shop provided fabrication assistance, H&K’s Austin Auto Body affiliate painted the components and H&K’s Austin Graphics affiliate provided lettering on the control panel. [Dunne’s Towing](#) was gracious enough to transport the engine to the Career Center.

Employees from H&K and Rahns were on hand to present the engine to the Career Center on Thursday, December 14<sup>th</sup>, 2023.

RAHNS Construction Material Co. currently serves eastern PA and the adjoining NY, NJ and DE region with eight permanent [ready-mix concrete](#) plant locations. Additionally, RAHNS owns and operates portable plants that can be set up anywhere throughout the Mid-Atlantic Region to provide on-site ready-mix products for large construction projects. RAHNS also manufactures [precast concrete products](#) at its Rahns, PA location and produces all standard precast products. RAHNS can also fabricate large, custom precast structures for bridges, box culverts and other complex civil structures.

Further information on [RAHNS Construction Material Co.](#) and its wide array of ready-mix and precast concrete products may be found by pointing your browser to the aforementioned [rahnsconcrete.com](#) or by calling 610.528.4060.
